

### PRE-DELIVERY EQUIPMENT CHECK

- › Final testing and controls prior to shipment of equipment
- › Ensuring conformity against Mecfor's Quality plan (ISO 9001:2015 certified).

### SUPERVISION OF INSTALLATION, COMMISSIONING AND START-UP

- › Following up on the equipment condition after unloading;
- › Making sure the installation follows Mecfor's recommendations;
- › Inspection during start-up of the equipment;
- › Adjusting the equipment according to Client's requirements;
- › Coming into force of Mecfor's equipment warranty policy.

### TRAINING

- › Training on best practice to operate the equipment;
- › Describing equipment particularities with tips for trouble shootings;
- › In-depth sessions for maintenance crew (mechanical, electrical & automation).

Mecfor After-Sale service follows your equipment from the day it is ready to be shipped until the end of life management on-site.
